

University of the Cordilleras
College of Information Technology and Computer Science

06/14/2019

Dear Respondent, We, the CC12 - Statistical Design and Analysis students are conducting a research entitled, "Programming Background and Performance of the CITCS Students in University of the Cordilleras". The purpose of this research is to determine the level of proficiency in Java programming of freshmen students.

This survey is for research purposes only. Please give your most honest answer upon answering the following questions down below. Data gathered will be treated with utmost confidentiality. Thank you.

Respectfully,
 Christopher M. Bermudez
 Vily Kaylle G. Cachero
